Citat:

tomorad je napisao/la:
Problem ti nije u postgresql-u veæ u tome ¹to ti put /usr/local/pgsql/bin/ vjerojatno nije u PATH varijabli.
Za prvu ruku, izvr¹i ovo (dok si logiran kao postgres):
$ PATH=$PATH:/usr/local/pgsql/bin/
(valjda zna¹ da je ovaj prvi $ prompt, to ne upisuje¹).

nakon ovog dijela sam probao createdb i dobijem sljedeæe:

createdb: could not connect to database postgres: could not connect to server: No such file or directory
Is the server running locally and accepting
connections on Unix domain socket "/tmp/.s.PGSQL.5432"?

what now?
